OXYGEN SUPPLY SOLUTIONS

WHY BUY OXYGEN WHEN YOU CAN MAKE YOUR OWN?
Mediquip have been providing the Australian veterinary industry with oxygen supply plants since 2009. Our range of oxygen plants eliminate the need for costly and dangerous oxygen cylinders, as clinics can manufacture their own oxygen supply.

Mediquip have a range of oxygen concentrators and Airsep oxygen supply plants that generate near pure oxygen from the air we breathe. They do this through a method called pressure swing adsorption (PSA) which removes the nitrogen from the air leaving 93% oxygen.

ADVANTAGES:
• ECONOMICAL: cheaper than renting cylinders, buying refills and paying for deliveries
• CONVENIENT: no more concerns with running out of oxygen during a procedure or out of hours
• SAFE: reduced OHS/workplace injuries risk from handling cylinders
• COMPACT: requires no more space than your cylinder storage
• FLEXIBLE: potential to also run air tools, venturi suction and scavenge from the compressors
• SUPPORT: 24/7 technical support available

For further information please contact our friendly team.
NUVO 10 OXYGEN CONCENTRATOR
The Nuvo 10 Oxygen Concentrator is a portable unit that can be wheeled from room to room. It can be fitted with an optional double outlet to split the flow so it can be used simultaneously with one line to an anaesthetic machine and one line to a cage. No pipeline is required.

ITEM NO: NDC1005
(anaesthetic machine not included)

OXYGEN CONCENTRATOR OUTLET EXTENDER
(Does not include Humidifiers)
Note: concentrator needs to be modified to accept part

ITEM NO: TR1012

RELIANT
The Reliant produces 8Lpm at Hospital pipeline pressure and has an internal reservoir with an automatic on/off function. The Reliant is suitable to run a small to medium sized practice.

ITEM NO: AS072-3 PRICE: P.O.A.
**NIDEK MAX 30**
The Nidek Max 30 produces 30 LPM at Hospital pipeline pressure. It is suitable to run a medium/large sized practice.

**Price: P.O.A.**

---

**225L TANK**
**Item No:** ASTANK225

**450L TANK**
**Item No:** ASTANK450

---

*GST is additional on all listed prices*
AS-B WITH OIL FREE AIR COMPRESSOR
The AS-B produces 25Lpm at Hospital pipeline pressure and has a 230 litre reservoir (920 litres at system pressure). The AS-B requires a separate air compressor to drive the unit. It is suitable to run a large practice.

PRICE: P.O.A.

AS-D WITH KAESAR AIR COMPRESSOR
The AS-D produces 45Lpm at Hospital pipeline pressure and has a 430 litre reservoir (1,720 litres at system pressure). The AS-D requires a separate air compressor to drive the unit. Mediquip uses a Kaesar compressor for this application. It is suitable to run a large practice.

PRICE: P.O.A.

AS-E WITH KAESAR AIR COMPRESSOR
The AS-E produces 90Lpm at Hospital pipeline pressure and has a 430 litre reservoir (1,720 litres at system pressure). The AS-E requires a separate air compressor to drive the unit. Mediquip uses a Kaesar compressor for this application. It is suitable to run large practices and teaching hospitals.

PRICE: P.O.A.

AS-G WITH KAESAR AIR COMPRESSOR
The AS-G produces 150Lpm at Hospital pipeline pressure and has a 430 litre reservoir (1,720 litres at system pressure) which is driven by a Kaesar air compressor. It is suitable for large practices and teaching hospitals.

PRICE: P.O.A.

Model shown is the AS-E

"Brisbane Veterinary Specialist Centre + The Animal Hospital’s innovative facility includes three sterile surgical suites, a high energy radiation therapy linear accelerator, a large fully equipped intensive care unit with modern patient ventilators, CT scanner and a hyperbaric oxygen chamber. Using this equipment while also undertaking many other procedures produces a massive draw on our oxygen plant. Four years ago we upgraded to the AirSep AS-E plant from the AirSep AS-D plant and have never looked back. The AirSep AS-E keeps up with our needs and is extremely reliable."

Brad Singleton, Brisbane Veterinary Specialist Centre, Albany Creek

MEDICAL GAS INSTALLATIONS
Mediquip has undertaken the design, installation and commissioning of Medical Gas Systems for the Australian Veterinary Industry for more than 30 years. Our experience is second to none and crosses a broad range of disciplines.

- Design & Consultancy
- Pipeline Installation
- Medical Gas Manifolds
- Medical Vacuum Plants
- Anaesthetic Gas Scavenging Systems
- Gas Alarm Systems
- Oxygen Separation Plants

Whether you’re building a new surgery, renovating or expanding, contact Mediquip and get it done right the first time.

SIMEON LIGHTS

As a leader in LED technology for the field of surgery, Simeon lights are made in Germany and high quality, using the latest LED technology.

- **Patented reflector technology**
  - Sim.POD: three high-performance LEDs of the latest generation positioned in the centre of a high-gloss aluminium reflector
  - Reflector Shadow Resolution System (RSRS) for unparalleled light quality: A large light-emitting surface, optimal light ray bundling and overlapping provide you with ideal illumination in any situation

- **Maximum energy efficiency and optimum heat management** - Ideal light yield with a small number of LEDs and aluminium reflectors, optimum heat dissipation thanks to aluminium LED carriers. The small amount of heat generated is immediately diverted to the aluminium light head so that the total amount of heat generated remains minimal

- **High Quality Construction** - Made from lightweight aluminium, the light body and suspension arm are quick and easy to reposition. The SIM LED surgical lights feature scratch-proof, toughened glass ensuring optimum light penetration throughout their working life

- **High Ra >96** at any colour temperature

- **5 year warranty on LED’s**

OPTIONAL CONFIGURATIONS AND ACCESSORIES:
- Wall mount, ceiling mount, mobile and mobile battery
- Dual head
- Monitor arm
- Multi-colour and single-colour
- Sim.Cam and HD Touch - High resolution camera and touch screen control unit
- Sim.Stream - Telemedicine system to transmit video signal, and record to USB drive

For more information please contact a Mediquip representative.

“**We are very happy with our Sim.LED 3500+ lights. They provide brilliant illumination in a range of settings in our clinic. We have found a single Sim.LED 3500+ is perfect for dental procedures and minor or routine surgeries. Using two provides plenty of light for more extensive surgery. We have both ceiling mounted and mobile stand options and have no concerns with either.**”

HANSHIN STERILISERS

SIMPLE, RELIABLE WITH SERVICE BACK UP AND LOCAL SUPPORT

The Hanshin range of steam sterilisers have been the popular choice in veterinary practices across Australia for more than a decade. A key feature of Hanshin 21L and 41L sterilisers is the square chamber, which allows for increased efficiency of loads with a greater usable capacity. The active vacuum drying system minimises wet packs after completion of the cycle, and the steam generator means less water is used for steam production.

All functions of the sterilisation cycle such as fill, heat, sterilise, vent and dry are monitored in real time by a microprocessor. Users can check the present temperature, remaining time of sterilisation and dry, next phase and water level on the front panel display.

A built-in self-diagnosis program generates warnings and will display error codes on the LED display should any operating error occur during the cycle. The included printer can be used to print out the cycle performance for a record of traceability.

Hanshin Sterilisers are available in three sizes to suit your practice’s needs. Mediquip maintains a comprehensive parts stock and provides service back-up for the entire range.

21L ‘S’ CLASS WITH VACUUM DRY
- OVERALL DIMENSION: 513W x 625D x 442H mm
- SQUARE CHAMBER: 225W x 425D x 225H mm
- VOL: 21.5L
- MATERIAL: STS 316L
- RESERVOIR: Vol: 5L (full water level)
- VACUUM PUMP: Flow Rate: 24 l/min
- DISPLAY: LED Display

ITEM NO: HS2321SD  PRICE: P.O.A.

41L ‘S’ CLASS WITH VACUUM DRY
- OVERALL DIMENSION: 615W x 757D x 505H mm
- SQUARE CHAMBER: 302W x 450D x 302H mm
- VOL: 40.5L
- MATERIAL: STS 316L
- RESERVOIR: Vol: 6L (full water level)
- VACUUM PUMP: Flow Rate: 24 l/min
- DISPLAY: LED Display
- POWER: Requires 15amp

ITEM NO: HS3041SD  PRICE: P.O.A.

60L ‘S’ CLASS WITH VACUUM DRY
- OVERALL DIMENSION: 632W x 955D x 1,246H mm
- ROUND CHAMBER: Ø340 x L723 mm
- VOL: 60.0 L
- MATERIAL: STS 316L
- RESERVOIR: Vol: 4.2L (full water level)
- VACUUM PUMP: Flow Rate: 40 l/min
- DISPLAY: LED Display
- POWER: Requires 15amp

ITEM NO: HS3460SD  PRICE: P.O.A.

MIDMARK VETASSURE 23L ‘S’ AND ‘B’ CLASS STERILISER

Up to 20% faster cycle time with the speedy pre-programmed cycles to ensure rapid workflow while sitting comfortably on a standard work bench.

With a combination of vacuum, pressure and temperature allowing steam penetration into every type of load.

Filling the internal reservoir is made simple with a self-priming pump.

- OVERALL DIMENSION: 505W x 695D x 400H mm
- CHAMBER DEPTH: 530mm
- Round chamber
- Reservoir holds enough water for up to 10 cycles
- DISPLAY: LED Display

**ACCESSORIES/CONSUMABLES**

**OPTIONAL EXTERNAL PRINTER**

**MOBILE STAND, 232IVD**

- Dimensions: 590W x 660D x 821H mm

**MOBILE STAND, 904IVD**

- Dimensions: 690W x 760D x 821H mm

**STEAM INTEGRATOR CLASS 6 VET**

**REVERSE OSMOSIS SYSTEM**

The OSM2 Reverse Osmosis system automatically fills your steriliser with distilled water. The unit is connected directly to the mains water system and saves both time and money by removing need to regularly buy distilled water.

**ULTRASONIC CLEANERS**

These FXP range of ultrasonic cleaners feature a PVC jacket and mechanical timer and include the basket and lid.

3L, 240mm x 140mm x 100mm (tank), 210mm x 110mm x 75mm (basket)

DGM AND STERILISERS

FROM 100 TO 1100 LITRES

DGM AND Steam sterilisers are produced in Europe following CE standards and meet the world’s toughest standards of quality and safety. DGM AND Series are designed for steam sterilisation of surgical instruments, textiles, clothes, rubber items, metal, plastic and glassware.

**KEY FEATURES:**

- All steriliser models are available in single-door and double-door versions
- Siemens Process Controller
- Vertical sliding door(-s)
- Double stage vacuum pump
- 13 integrated programs including a wide range of customizable ones
- 7” colour touch screen display indicating real time Cycle Phases and Alarms
- Built-in printer
- Built-in steam generator
- Chamber door cannot be opened when chamber is pressurised

PLASMA STERILISER

DGM Low-temperature plasma sterilizers provide an efficient sterilization solution for heat and moisture sensitive medical equipment in CSSDs, Hospitals, Veterinary Practices and Gastroenterology Endoscopy Clinics.

DGM Z is used to sterilize medical equipment and instruments made of heat-sensitive materials: products of synthetic and polymer materials, medical optical systems, medical electric instruments and electrical power cables, rigid endoscopes, ultrasonic medical devices, sensors, medical devices, including ultrasound devices, medical implants and tools for their installation, etc.

They are available as a 40L bench top model, or 150 and 200L free standing units.

Please contact Mediquip for more information.

* GST is additional on all listed prices
DGM WASHER DISINFECTORS

The DGM range of washer disinfectors are high quality units for washing and disinfection of surgical instruments and laboratory glassware.

- Universal: ideal for processing various veterinary surgical instruments
- Efficient: low energy consumption
- Multi-functional: a wide range of customisable programs in the basic integration for accurate adjustment according to customer needs
- Power: high power circular pump enables high quality processing
- Forced air drying system
- Wide range of carts and accessories
- LCD screen with full display of data on current process parameters and completion stage

REVERSE OSMOSIS

Mediquip have a range of small and large Reverse Osmosis systems that provide a pressurised sterile water supply for washer disinfector systems. Our systems require low volume water supply and offer simple, low-maintenance operation.
VENTILATORS

E700 VENTILATOR
- **TIDAL VOLUME (ML):** 50-2,000 (±15% or ±20mL)
- **VENTILATION FREQUENCY:** 5 – 60
- **MINUTE VOLUME (L):** Calculated
- **PEEP (CM H₂O):** Adjustable 0 – 20
- **O₂ (%) (FIO₂):** 60 or 100 (0.6 - 1.0)
- **TRIGGER SENSITIVITY (L/MIN):** 3 – 15
- **PRESSURE SUPPORT TERMINATION:** 20% - 80% of max. flow
- **BATTERY OPERATING TIME:** 18 hours for default settings
- **BUILT-IN BATTERY CHARGER:** Yes
- **DISPLAY TYPE:** 4.3” Color TFT Screen
- **AUDIBLE SILENCE:** Yes, 120 seconds
- **DIMENSIONS (MM):** 250 x 200 x 155
- **WEIGHT (KG) WITH/WITHOUT BATTERY:** 2.4 / 1.70

**ITEM NO:** OTOIEVE700V  **PRICE:** P.O.A.

### CIRCUIT FOR E700 VENTILATOR

**ITEM NO:** OT01CV8030CS  **PRICE:** $64.70

### HIGH-LOW FLOW OXYGEN BLENDER

The 120H/L High-Low Flow Oxygen Blender mixes medical grade compressed air and oxygen to provide a pressurized gas source ranging from 21 to 100 percent oxygen. An optional wall mount or pole clamp mount is available.

**ITEM NO:** TAOBH-DIDI2NN  **PRICE:** P.O.A.

### MTVI1000 VENTILATOR, INTENSIVE CARE

The MTV1000 is a fully featured, compact and portable, multi-purpose ventilator, providing a wide range of respiratory care solutions to both hospitals and patients. It is used to treat patients with respiratory failure from inadequate ventilation or oxygenation (or both), as evidenced by hypoxemia with or without hypercapnia.

**KEY FEATURES:**
- **TIDAL VOLUME:** 50 to 2500ml
- **PEEP/CPAP:** 0 to 45 cmH₂O
- **RESPIRATORY RATE:** 2 to 60 bpm
- **BATTERY OPERATING TIME:** 180+ minutes of normal operation

**ITEM NO:** MKV125171  **PRICE:** P.O.A.

### CPAP SYSTEM

‘Low flow’, non-invasive ventilation for the respiratory distressed patient.
- **SMALL AND LIGHTWEIGHT**
- **SIMPLE TO USE**
- **MASK INCLUDED, BUT CAN BE ATTACHED TO OTHER VETERINARY MASKS**

**ITEM NO:** OTR01CV0213  **PRICE:** P.O.A.

* GST is additional on all listed prices
ELECTROSURGICAL UNITS

New Digital Technology: Safety, Flexibility, Reliability, Convenience and Compact Design

ANPM (Automatic Neutral Plate Monitoring):
- Protect patients from possible burns due to inadequate contact of the dual return plate
- Alarm will sound and output automatically cut off in the event of a loss of contact

Bipolar Cutting & Coagulation

Two Modes of Monopolar Cutting & Coagulation

User Memory Function: Save the setting of each user’s memory (from 0 to 9)

Three Different Audible Signals: The MEDITOM Basic series have different audible signals for cut & coagulation and bipolar coagulation.

**MEDITOM BASIC 200**

Includes disposable single plate (5pcs), disposable dual plate (5pcs), reusable plate cable, disposable twin button handle with cable (2pcs), double foot switch, electrodes (6pcs).
- **POWER SOURCE:** 110/220V - 8.0/4.0A, 50/60Hz
- **CONSUMPTION:** 800VA
- **DIMENSIONS (HxWxD):** 137x300x395mm
- **WEIGHT:** Approx. 13kg

**MODE** | **POWER**
---|---
CUT | PURE 200W at 500 ohms

BIONET MONITORS

Bionet patient monitors represent affordable quality in veterinary patient monitoring systems. All units feature Suntech NiBP which has been university proven to be the most accurate NiBP available when used on animals. Other features include user customisable displays and Nellcor pulse oximetry.

STANDARD FEATURES INCLUDE:
- High-performance Suntech NiBP
- Low perfusion SpO₂ measurement using Nellcor technology
- Multiple display modes
- 120 hours of trend data are stored
- Li-ion battery allows cordless use for up to 1 hour
- Individual sweep speed setting for each parameter

EXTENDABLE PARAMETERS:
- Mainstream/Sidestream CO₂
- 12Ch ECG measurement module
- Invasive blood pressure measurement
- Low perfusion SpO₂ measurement

Monitor Stand pictured with BMS & E700
SUNTECH BP MONITORS

VET 2O
The SunTech Vet 20 is a portable, automated BP monitor for companion animals. This unit quietly performs motion-tolerant BP measurements with an animal specific algorithm so you can take accurate readings on awake or sedated animals with no shaving or gel. Includes Size 1-7 cuffs and removable protective armour.

Item no: STV013500 Price: P.O.A.

VET 3O
The portable and rechargeable SunTech Vet 30 provides reliable BP, SpO2 and temperature measurements. Intervals can be set to automatically take BP readings during a monitoring period, and provide continuous measurements of temperature and SpO2. This unit quietly performs motion-tolerant BP measurements with an animal specific algorithm so you can take accurate readings on awake or sedated animals with no shaving or gel. Includes Size 1-7 cuffs and removable protective armour.

Item no: STV01701

See how easy BP measurements are with the Vet30: https://youtu.be/qDGdknCIqe4

PULSE OXIMETERS

BIONET OXY9WAVE PULSE OXIMETER
- 3.2” colour TFT LCD Display
- Vertical and horizontal display
- Nellcor compatibility
- 100-240V
- Lithium battery
- Weight: 300g
- Size: 45mm H x 210mm W x 75mm D
- Comes with: Y sensor, Ac adaptor, Pole mount bracket

Item no: BTVOXY9 Price: P.O.A.

PULSE OXIMETER, NELLCOR
Featuring Oxygen Saturation, Pulse Rate, and Vertical Bar Graph capabilities, it has indicators for Pulse Amplitude, Pulse Search, Low Battery, Alarm Silence, Interference, Data in Sensor, Sensor disconnect and Print.
- Supplied with veterinary probe
- 6V supplied by four AA size batteries
- 0.27kg
- 7cm x 15.6cm

Item no: TYN65-1A Price: P.O.A.

PULSE OXIMETER MASIMO, RAD-57
The world’s most versatile handheld oximeter, featuring fully upgradable rainbow technology, the Rad-57 comes standard with Oxygen Saturation (Sp02), Pulse Rate, and Perfusion Index.
- Data Display: %SpO2, SpHb g/dL, SpOC mL/dL, %SpMet, SfQ bar, PI bar, Pulse Rate, Perfusion Index, Patient Volume Index, low Signal IQ, alarm status, alarm silenced status, and battery status.
- Batteries: 4 AA Alkaline
- Dimensions: 15.8 cm x 7.6 cm x 3.6 cm
- Weight: 0.37kg

Item no: EVMRAD57 Price: P.O.A.

DOPPLERS AND ULTRASOUND

PARKS DOPPLER
Parks Doppler ultrasonic blood flow monitor – the most reliable method of NiBP measurement. (Flat probe and cuff range and sphygmomanometer included).

ITEM NO: BC811BV

REPLACEMENT FLAT PROBE

ITEM NO: BC832395011

EICKEMEYER DOPPLER
- Reliable and accurate non-invasive blood pressure monitor for small animals.
- Compact, hand-held design
- High sensibility for a clear signal
- Adjustable sound volume and headphone connection
- Focused 8 MHz probe with wide beam for better flow detection in the artery
- Probe adapted for positioning on the carpal joint or the underside of the tail
- Rechargeable battery powered, operating time: ± 6 hours
- Dimensions (mm): L 175 x W 80 x H 25
- Lightweight (300 g)

ITEM NO: EJ217210V

V3 VET PORTABLE COLOUR DOPPLER ULTRASOUND SYSTEM
The V3 Vet is an excellent OB diagnosis unit for veterinary, and is suitable for dogs, cats, bovine, horse and sheep. Designed with advanced imaging technology as well as a car-based colour doppler system, the V3 Vet delivers quality applications perfect for any practice.

SPECIFICATIONS:
- 12 inch HD LED colour screen
- Rotatable Screen
- Two activated transducer ports
- 500 GB hard disk
- Data Port: Video, S-Video, USB2.0, DVI, RS-232, RJ45
- Weight 7.5kg
- Electronic Convex Transducer standard
- Electronic Linear Transducer standard
- Other probes include: Endorectal Transducer, Micro Convex Transducers.

ITEM NO: ZONV3VET
INFUSION PUMPS

The DAIWHA range of volumetric infusion pumps and syringe drivers are manufactured in Korea, the modern home of quality electronics manufacturing. These pumps represent superior quality, coupled with durability and an intuitive interface.

DAIWHA DI-2000 INFUSION PUMP
Single Channel, Compact Design. A hospital grade pump at a veterinary price.

CONVENIENT SETTING OF FLOW RATES:
• Micro Setting
• Dosage Mode
• Gtt(Drop/min.) Setting Mode
• Time Setting Mode

EASY TO USE:
• Titration
• Key Lock
• Micro Mode
• One-touch Bolus & Pause
• Separable Pole Clamp & Easy Portable

ITEM NO: VSDI2000V PRICE: P.O.A.

DAIWHA DUAL CHANNEL INFUSION PUMP
ITEM NO: VSDI2200V PRICE: P.O.A.

MEDIMA P100 INFUSION PUMP
Extremely easy to use model which operates in ml/h. Calculates the flow rate based on volume and delivery time. Large, full-colour graphic touch interface and numerical keyboard. Various infusion units and stores infusion history log.

ITEM NO: DMS100 PRICE: P.O.A.

HESKA BUDGET INFUSION PUMP
Find out why thousands of customers love Heska’s Vet/IV Pump. The unit is easy to use, can be operated on battery or AC power, and can be mounted on a cage or IV pole. Weighing only 1.2 kilograms, the Vet/IV Pump supports three pressure settings and can be programmed for very small to very large volumes with rate and time or rate and volume to be infused.

FEATURES:
• Battery backup
• Macro and Micro infusion capability
• Parts and service readily available
• Lightweight rugged design

ITEM NO: HSKCAT6201B PRICE: P.O.A.

BATTERY HESKA/NIKI PUMP
ITEM NO: NTMBVM67

MEDIMA S100 SYRINGE DRIVER
Extremely easy to use model which operates in ml/h. Calculates the flow rate based on volume and delivery time. Infusion start combined with a syringe installation takes only seconds. Large, full-colour graphic touch interface and numerical keyboard.

ITEM NO: DMS100 PRICE: P.O.A.

SYRINGE PUMP, SINGLE CHANNEL, BUDGET
Syringes 10, 20, 30, 50 ml of calibrated syringes
• Accuracy of flow rate including syringe: within ±2%

ITEM NO: NRDP2090
**INFUSION SETS**

**DAIWHÁ INFUSION SET**  
Suits Daiwha/Niki/Heska pumps. 2.5m.  
*ITEM NO: VSI1200*

**DAIWHÁ TRANSFUSION SET**  
*ITEM NO: IVO2001*

**GRASEBY**  
*ITEM NO: BM8C230V*

**FREE LOAN INFUSION PUMP DEAL**

Agree to purchase one of our ‘sets per month’ plans for a minimum of 12 months and Mediquip will provide you with a free loan Medifusion DI-2000 Infusion pump. Keep purchasing the sets after the 12 months and you can continue to take advantage of the free loan pump on a month-to-month basis.

**PRODUCT BENEFITS INCLUDE:**
- No service or repair costs. If the pump fails, it will be exchanged
- Minimal down time (no waiting for repairs, the unit will be swapped)
- No batteries to replace (this is Mediquip’s responsibility)
- High quality accurate infusion pump and sets with less than 3% error (10% for Niki/Heska, 40% if using cheaper vet sets)
- Daiwha sets can also be used on Niki/Heska pumps with less than 10% error
- DI2000 Infusion Pumps run from 0.1 to 1200mls per hour (Micro and Macro)
- Zero cost to you because the set cost is passed on to customers

To take advantage of this excellent offer please call us on 1300 246 349.

**ALREADY ENJOYING THIS DEAL? GET ANOTHER!**

There is no limit to the number of plans per customer!

**SETS PER MONTH:**
- 150 = $1.50 per set
- 100 = $1.60 per set
- 75 = $1.75 per set
- 50 = $2.10 per set
- 25 = $2.95 per set
- 20 = $3.45 per set
- 15 = $4.25 per set
- 10 = $5.87 per set
- 5 = $10.75 per set

Note that plans can be changed on a quarterly basis. Larger plans are available on request.

ANAESTHESIA

MQV1100 ANAESTHETIC MACHINE
A continuous flow Anaesthesia System, this popular machine has been manufactured by Mediquip for more than 20 years and represents the quality, reliability and robustness we look for in all of our products. The MQV1100 has the added advantage of being completely customisable and customers can regularly request specific modifications to suit their needs.

STANDARD FEATURES:
- 0-3.5Lpm flowmeter
- Emergency oxygen flush
- Stainless steel frame
- Pedestal mounting flate
- 3 years parts & labour warranty (excludes consumables)

SUPPLIED WITH:
- Miden CO₂ absorber
- 22mm circle breathing circuit
- Scavenge adaptor
- 2L rebreathing bag
- Oxygen hose & handwheel

ITEM NO: MQV1100  PRICE: $1,495.00
* optional pedestal mount  ** vaporiser and mount not included

Anaesthetic Machines can be configured to your requirements. Speak to one of our friendly team for more details.

WATO EX-20 ANAESTHESIA MACHINE
The Wato EX-20 Vet is designed for the demanding veterinary environment. The unit features a pressure controlled electronic ventilator capable of ventilating patients from 1 to 100kgs. These units have been installed in veterinary teaching hospitals and research facilities across Australia and represent the highest standard of patient care.

TECHNICAL SPECIFICATION:

- **WEIGHT:** 120kg
- **DIMENSIONS:** 1375H x 880W x 620D
- **POWER SUPPLY:** 100-240V
- **VENTILATOR:** Electronic control
- **TIDAL VOLUME:** 20-1500mL (VCV) / 5-1500mL (PCV)
- **INSPIRATORY FLOW RANGE:** 1-100 L/min
- **OXYGEN SENSOR:** standard
- **CO2 CANISTER:** 1.5L
- **GAS SUPPLY:** O2, O2+N2O, O2+N2O+Air
- **BACK-UP CYLINDER YOKES:** 2 or 4 yokes

ITEM NO: UMDEX20V  PRICE: P.O.A.

MALLARD 2800C LARGE ANIMAL ANAESTHESIA VENTILATION SYSTEM

- Microprocessor based ventilator for ease of use and superior performance
- Large, easy to read LCD display of respiratory values
- Ascending bellows (18 liters) reduces the patient’s work of breathing
- Quietest ventilator on the market
- Option Pediatric Bellows Assembly (Model 28PBA)
- No disassembly required for cleaning
- GCX mounting rail for additional shelves or monitors
- Quick change soda lime canister
- Built to last, custom designed frame protects all critical components
- Optional M.R.I. compatible

ITEM NO: AB2800C  PRICE: P.O.A.
ISOFLURANE – 250ML
Mediquip now stocks Isoflurane. Inhalation Anaesthetic for use in dogs, cats, ornamental birds, reptiles, small mammals and horses.

**Item no:** PEFGISO0250  **Price:** $58.00 (each)

FRESH GAS ADAPTOR - 22M
Connects to the fresh gas outlet on your anaesthetic machine.

**Item no:** CIGDF550  **Price:** $68.90

SCAVENGE ADAPTOR
Connects 30mm absorber outlet to 22mm tubing.

**Item no:** UASCAVADAP  **Price:** $16.00

OXYGEN DEMAND VALVE
Delivers up to 160Lpm on demand and 50Lpm for resuscitation.

**Item no:** CIGSS2095  **Price:** $745.00

SCAVENGER CANISTER
Connects to your absorber to remove anaesthetic agent from exhaled gases.

**Item no:** UASCAVCAN  **Price:** $36.75

KAB ABSORBER
This autoclavable CO\textsubscript{2} absorber has excellent exhalation valve control & CO\textsubscript{2} flow characteristics.

**Item no:** MDIKABHNIP  **Price:** $168.00

MIDEN ABSORBER
This budget CO\textsubscript{2} absorber has been used extensively in the vet industry for more than 15 years.

**Item no:** UAAB1000  **Price:** $132.00

BRACKET FOR MIDEN ABSORBER

**Item no:** TRBOX  **Price:** $84.00

ABSORBER PANEL MOUNT
Used to mount above absorbers to flat surface.

**Item no:** MDIKABDICVOC  **Price:** $54.90

ABSORBER POLE MOUNT
Used to mount above absorbers to pole or tube.

**Item no:** MDIKABDIK  **Price:** $54.00

FRESH GAS ASSY, 3 WAY

**Item no:** PAG8989  **Price:** $252.00

SODALIME, VIVALYME
4.5 litre bottle of low dust, high surface area Sodalime. Colour change – white to violet.

**Item no:** AJXS24191  **Price:** $37.50

HUMIDIFIER, DISPOSABLE
Includes humidifier with connector to fit Australian standard or USA standard flowmeters.

**Item no:** KA3232  **Price:** $40.70

HUMIDIFIER, REUSABLE

**Item no:** SHAXHM05P

INDUCTION BOXES
Boxes can be made to any size required in addition to the standard sizes below:

INDUCTION BOX, SMALL ANIMAL 12L X 8W X 6H CM

**Item no:** MIBOXANAES

INDUCTION BOX, MEDIUM ANIMAL 24L X 15W X 15H CM

**Item no:** MIBOXANAESM

MSS TEC 3 ISOFLURANE VAPORISERS

The MSS Tec 3 Style Vaporiser has been re-designed and represents all the qualities you’ve come to trust in your Tec 3.

- Advanced Wicking System ensuring consistent output of flow rates and dial settings
- Solid Metal Construction assures years of use without trouble and prevents output fluctuations caused by temperature changes
- 10 year warranty subject to manufacturers service program
- Keyfill mechanism
- Maintains accuracy over long periods of time

Available in Isoflurane, Sevoflurane, Cage Mount or Selectatec.

**ITEM NO:** MQVMS3

Mediquip’s Vaporiser service centres are accredited to ISO9001:2008 (Licence no. 11561) so you can rest assured that your vaporiser is being tested to the highest standards.

Ensure your vaporiser is operating accurately with a full overhaul and recalibration.

Fast turn-around time means minimal down time.

Or take advantage of our Vaporiser Upgrade which includes conversion from Halothane to Isoflurane.

To book in an exchange contact the Mediquip Service Department on 1300 246 349.

ITEM NO: SHA554013 with Gauge  PRICE: $140.00
ITEM NO: SHA554010 w/out Gauge  PRICE: $125.00

FILTER, SINTERED FOR SUCTION ATTACHMENT
ITEM NO: CIGWA185  PRICE: $18.95

NOZZLE, YELLOW FOR SUCTION ATTACHMENT
ITEM NO: CIG518634  PRICE: $16.85

HOSES CAN BE MADE TO ORDER AS PER AUSTRALIAN STANDARDS
O2, turbine tool, handwheel & self-sealing extension hoses. Contact us for more information.

GREEN OXYGEN THERAPY TUBING, 5MM ID
Run tubing from your oxygen flowmeter to anywhere in your surgery with this versatile tubing.

ITEM NO: DAWYR62  PRICE: $1.62/m, $48.60/30m Roll

BUBBLE TUBING, 50 METER ROLL
Has an expanded ‘bubble’ every 30cm to allow for easy connection.

ITEM NO: ISG1170  PRICE: $45.02

WHITE OXYGEN HOSE, 5MM ID
Used to connect your oxygen equipment to your pipeline or oxygen regulator.

ITEM NO: DAW518403  PRICE: $5.23/m, $247.50/50m Roll

BLACK AIR HOSE, 5MM ID
Used to connect your air equipment to your pipeline or oxygen regulator.

ITEM NO: DAW518402  PRICE: $5.85/m, $292.50/50m Roll

BLUE N2O HOSE, 8MM ID

ITEM NO: DAW518404  PRICE: $6.79/m, $339.50/50m Roll

YELLOW SUCTION HOSE, PVC, 8MM ID

ITEM NO: DAW518401  PRICE: $5.70/m, $212.00/50m Roll

YELLOW SUCTION HOSE, SILICON, 6MM ID
Autoclavable.

ITEM NO: LUD524299  PRICE: $12.45/m, $311.25/25m Roll

* GST is additional on all listed prices
CORKRATTED SCAVENGE TUBING
22mm ID tubing to take away anaesthetic gases.
* ITEM NO: DAWS12004  PRICE: $8.95/m, $229.50/30m Roll

TURBINE TOOL HOSE, 8MM ID
* ITEM NO: DAWS18907  PRICE: $23.95/m

LINKETTE TUBE CONNECTOR
Used to connect two pieces of tubing together.
* ITEM NO: DAVM663  PRICE: $2.50 each

SWIVEL TUBE CONNECTOR
Avoid tangles by using a swivel tube connector.
* ITEM NO: EVM663S  PRICE: $3.95 each

OXYGEN ICU CAGES
The Buster ICU Cages are collapsible and fold away in a customer bag when not in use. They come with an oxygen accessory kit which includes the venturi oxygen delivery nozzles. These cages can be used with the Newlife Intensity Oxygen Concentrator.

Small, 45x33x33cm
* ITEM NO: SVOC-100

Medium 60x45x45cm
* ITEM NO: SVOC-110

Large 111x65x65cm
* ITEM NO: SVOC-120

AII-2000M PORTABLE OXYGEN MONITOR
• Measures percent oxygen from 0.0% to 100%
• Two adjustable oxygen alarms
• An advanced galvanic oxygen sensor
• 32 month sensor operating life; no maintenance required
• 13,000 hours of battery use
• Wide variety of optional accessories.
* ITEM NO: AD2000M

SILICONE TUBING
Translucent tubing is supplied in individually sealed and packaged 15 meter coils.

SCAVENGE

Gas Scavenging Systems collect waste gases from the exhaust port of the anaesthetic circuit or ventilator and transfer them to a receiving system. From there the system disposes of the waste gases outside of the working environment. The use of anaesthetic gases and volatile agents within the closed environment may lead to the chronic exposure of staff with potential adverse consequences on their health. In addition to this, certain agents are potentially flammable and should not be allowed to accumulate in a closed area. Anaesthesia machines, ventilators, and breathing systems must be checked annually and maintained in good working condition to ensure there is no gas leakage.

Scavenging may be **ACTIVE** (suction applied) or **PASSIVE** (waste gases proceed passively down a corrugated tube away from the clinical environment - limitations apply with this method).

**ACTIVE SYSTEM**

**ACTIVE SCAVENGE SYSTEM**

Offers reliable active scavenge of waste anaesthetic gas, to current Australian standards. The Active Scavenge System can be wall mounted or mounted to the back of the anaesthetic unit. Don’t let WH&S become an issue for you – insist on a premium quality scavenger.

* ITEM NO: MQP2662ACT

**SCAVENGE BOX**

Used in conjunction with a Central Vacuum system the scavenge box connects between your anaesthetic absorber and the central vacuum system to prevent negative pressure being created in your anaesthetic circuit.

* ITEM NO: MQP2662BLD  PRICE: $395.00

**SIX OUTLET ACTIVE SCAVENGE EVACUATION SYSTEM**

* ITEM NO: MQP2772ACT

**SMALL VACUUM PLANT**

- Rotary Vain Suction Pump
- 140Lpm
- Manual On/Off
- Suits up to 4 Suction Points

* ITEM NO: AVVASCAYSYS

**CENTRAL VACUUM PLANT**

Address all of your suction & gas scavenging needs with this Central Vacuum Plant. Powered by a high quality Becker pump mounted on a 100L reservoir, it includes an automatic on/off function.

* ITEM NO: AVVACSYS

**SCAVENGE OUTLET, 22M**

* ITEM NO: EESC22M

**SCAVENGE OUTLET 22M, WALL, PASSIVE (NO WALL PLATE)**

* ITEM NO: EESC22MW

**ACTIVE WALL OUTLET CONFIGURATIONS**

* Wall plate pictured with scavenge outlet
* Wall plate pictured with oxygen and venturi suction outlet
* Wall plate pictured with oxygen, air and suction outlet

---

* GST is additional on all listed prices
PASSIVE SYSTEM

A passive system is a low pressure system that relies on the passive flow of gases out of the anaesthetic machine and is connected to some sort of egress out of the room. As this relies on a passive flow limitations apply.

PASSIVE SCAVENGE OPTIONS

ITEM NO: HZD5006, Single 145x127mm
ITEM NO: HZD5007, Double 145x237mm (other sizes available)

WALL BOXES
Should your surgery walls be constructed of brick, preventing the mounting the gas outlets in the wall, these powder coated boxes allow mounting of outlets on the surface of the wall.
ITEM NO: HZDS101SMP, Single PRICE: $95.00
ITEM NO: HZDS102SMP, Double PRICE: $135.00 (other sizes available)

LINE ISOLATION VALVE ASSEMBLY
Allows the connection of two oxygen cylinders to your pipeline through isolation valves thus allowing you to always have a backup on standby.
ITEM NO: HZDDVI PRICE: $195.00
ITEM NO: HZDDVIS PRICE: $385.00 (includes shuttle valve)

* GST is additional on all listed prices
DIAGNOSTICS

CHILLBUSTER VET WARMING SYSTEM
The Chillbuster Vet Warming System is a portable and safe temperature controlled source of warmth for pre-surgical, surgical and post-surgical care of animals. The Chillbuster Vet Warming System is a professional level product for veterinary clinics involved with patient recovery and veterinary hospitals involved with surgical and recovery procedures.

This system does not require a bulky control box, but rather a small, hand-held controller which can be easily hooked on to the surgery table or cage door. The non-permeable disposable covers keep the system contamination free and provide for an easy clean up. The mat and blanket are water resistant and washable by hand, with a medical grade power supply for enhanced electrical safety. The blanket can also be conveniently wrapped around your patient to ensure an even heat application.

The Chillbuster Vet Warming System has been designed to hold any of the six dialled temperatures for any length of time. The system operates extremely quietly; with the only sound you may hear being an audio alarm if the controller senses any system problems. Disposable covers are also available for hygiene and easy clean-up.

56 x 63cm Blanket  item no: TH150820101
56 x 76cm Blanket  item no: TH150820101
56 x 74cm Mat   item no: TH150820101

MISTRAL PATIENT WARMER
The Mistral Air Patient Warmer is a forced air warming device which enables safe, comfortable and a smart management of patient temperature. The Mistral Air Warming Blankets work as a cocoon of warmth for the pre-surgical, surgical, or post-surgical patient.

• Quiet operation
• Produces consistent temperature
• Immediate start with default temperature 38˚C
• Small, medium and large blanket included or sold separately

VET CENTRIFUGE WITH ROTOR
SPECIFICATIONS:
• Dimensions: 235H x 235W x 350D mm
• Weight: 13kgs without Rotor
• Rotor: BRK5401 included
• Type (ml) 24 x capillary & 12 x 2ml
• Tube size max (mm) 2 x 75 & 11 x 40mm
• PCV Reader & Sealing Clay included
• Manufactured in the UK

KEY FEATURES:
• 4 single LED’s for program identification
• Rotor speeds preset per program
• Acceleration & deceleration rates preset
• 4 programs for ease of use
• Times are preset per program

EXAM TABLES

Mediquip are able to customise our stainless steel tables, tubs and trolleys to suit your clinic’s needs - just ask our friendly team.

STANDARD EXAM TABLE

- Stainless Steel
- Flat top
- Dimensions: 1200x600x900mm H
- Optional adjustable feet

Wall Mounted, fold away model also available

SURGERY TABLES

ELECTRIC LIFT OPERATING TABLE

- Stainless Steel
- Tops can be tilted beyond 60 degrees
- Adjustment by Electric lift column
- Will handle weight up to 150kg
- Fitted with tie down rails and come with 4 cam cleats positionable where desired
- Fitted with a fluid trough which drains at one end
- Dimensions: 1200 x 600mm.

V-top, height adjustable from 825-1000mm ITEM NO: MCVTOPTB

Flat-top, height adjustable from 830-1180mm ITEM NO: MCOT1200FT

SCISSOR LIFT TABLE

- Stainless Steel
- 1200 x 600mm top
- Feature a 10 mm fluid retention lip all round, and a fluid drain hole with a bucket hook
- Fully lowered height is 225 mm, and fully raised position, 900 mm
- Swivel castors allow either or both directional and rolling locking.
- The lifting actuator is a battery operated 24V system, which is totally failsafe. To recharge, simply unclip the battery and place it in a wall mounted cradle
- Will handle weight of 100kg

ITEM NO: MCSLTSML

SCISSOR STANDARD LIFT FLAT TOP TABLE

- 304 Grade Stainless Steel Top
- 1200 x 500mm
- 300kg Capacity
- Flat Table Top
- 2 Locking Wheels

Hydraulic height adjustment to 900mm ITEM NO: MQSLFLATTOP

Hydraulic height adjustment to 1300mm ITEM NO: MQSLFLATHITOP
SCISSOR STANDARD LIFT RECESSED TOP TABLE

- 304 Grade Stainless Steel Top
- 1200 x 500mm
- 300kg Capacity
- Recessed Table Top with drainage making this table suitable as a surgery table
- 2 Locking Wheels

*Hydraulic height adjustment to 900mm*  **ITEM NO:** MQSLRECESSSTOP

*Hydraulic height adjustment to 1300mm*  **ITEM NO:** MQSLRECESSHITOP

TWO TIER WASH AND TREATMENT TUB/TABLE

- Stainless Steel with removable grills
- Sloped two sides, drains into a standard 50mm diameter outlet
- Locally made, high-quality stainless steel manufacture

1670(L) x 600(W) x 900(H)mm
1670(L) x 580(W) x 900(H)mm
1600(L) x 645(W) x 900(H)mm
1500(L) x 600(W) x 900(H)mm
1200(L) x 600(W) x 900(H)mm

SLIMLINE PREP & TREATMENT TABLE

- Stainless Steel with removable grills
- Slopes back to the sink end, drains into a standard 50mm diameter outlet
- Tie Down mounts located on underside of perimeter

1670(L) x 600(W) x 900(H)mm
1670(L) x 580(W) x 900(H)mm
1550(L) x 600(W) x 900(H)mm
1200(L) x 600(W) x 900(H)mm

STAINLESS STEEL CYLINDER HOLDER FOR ‘D’ CYLINDER
ITEM NO: AWWMM00003 PRICE: $265.10

CYLINDER RESTRAINT, WALL LARGE
ITEM NO: MIBOTTLE-RES PRICE: $100.00

Freight may vary for each product depending on size and location. * GST is additional on all listed prices.
STAINLESS STEEL CAGE SYSTEMS

Stainless Steel Cage Systems are essential in any veterinary practice. Mediquip have a large range of cage modules available - plus we can custom build a cage system to suit your needs.

- Slam gates are easily removable and have loops to prevent the escape of added flooring material (i.e. paper)
- Doors can be hinged from either right or left side
- Floors have a fluid retention lip on front edge
- Double cages have reinforced floors and rear walls and have two doors and a central post locking system
- Caster bases can be fitted.

We were very impressed with the strength and workmanship of the cages delivered by Mediquip. They were fully customisable dimensions to fit our existing space at a price comparable with off the shelf products and communication was incredibly easy.

Richard Page, Emergency Vets 24/7, Cairns

PINK ABSORBABLE UNDERPADS
Mediquip’s pink absorbable underpads are constructed from a non-woven PAA material, with a quilt of high fluid absorbing crystals and a pink PE backing to prevent fluids escaping beneath.

Our absorbable underpads replace towels in cages and save time and money as the mat is simply discarded once soiled, rather than having to wash and dry as with traditional towels.

Sizes:
- Large - 900 x 600mm, Capacity - 2 Litres of fluid
  | Item no: SMABC002V | Price: $36.00 box/50 |
- Small - 600 x 600mm, Capacity - 1.5 litres of fluid
  | Item no: SMABC003V | Price: $36.00 box/80 |

BLUE LIGHT ABSORBABLE UNDERPADS
Blueys are light absorbency underpads, with a blue PE backing to prevent fluids escaping beneath.

Sizes:
- Large – 500 x 450mm, Capacity: 200mls of fluid
  | Item no: SMDEF001 | Price: $49.60 Box/250 |
- Small – 330 x 450mm, Capacity: 100mls of fluid
  | Item no: SMDEF002 | Price: $54.15 Box/250 |

It is vital that Biomedical Equipment is tested on a regular basis to maintain Australian Standards and manufacturer specifications. Regular testing provides both the user and patient with confidence, knowing that the equipment being used is safe and will provide accurate information from which safe diagnosis can be derived. With a second to none reputation for service excellence Mediquip technicians provide preventative maintenance and breakdown repairs on almost any type of biomedical equipment.

- Highly qualified technical team - maintenance and repair is completed by a qualified Biomedical Technician
- Service department can be contacted 24/7
- Servicing can be undertaken at the customer’s premises
- Any repairs needed will be addressed immediately
- Our team adhere to Australian Quality standards

**MEDICAL ASSET ADMINISTRATION SYSTEM**

- Mediquip provide customers access to MAAS (our Medical Asset Administration System) - an online, paperless database that retains a complete history of your medical equipment.
- Better management of your equipment inventory
- Stores details, service, repair and parts history
- Traceability of test equipment used by Mediquip
- Online service reporting available 24/7
- Provides lifecycle analysis for every asset
- Live status of equipment currently being repaired
- Completely paperless
- Perfect tool for Quality Assurance and Australian Council of Healthcare Standards
